

HR Portal Launch Lunch Celebration

Born out of the necessity to streamline processes and create a platform that promotes efficiency while securing effectiveness, The HR team proposed the creation of the HR Portal, a proposed one-stop shop tool for all employees of Infuturo Inc. The HR and Programming team worked closely together starting from the brainstorming process, formulation, creation, and completion of the new website to bring forth to the employees of the organization.

The HR Portal boasts numerous productive features and tools intending to cut back on paper use, secure document tracking, monitor real time productivity output and streamline leave, creation of memo, overtime application, and personnel requisition processing. It is only natural to celebrate by conducting a proper website launch for accomplishing such a feat and completing the gargantuan task. Hence, HR planned and organized a simple but meaningful Lunch Celebration!

On September 30, 2019 at 12 – 1p.m. at Site 4C, The Company’s Managers, Heads, and Leads along with the HR and the Programming team gathered together in celebration of the event. The affair was hosted by one of our PM Shift Heads, Mr. Melvin E. Franco.

The event formally started with a prayer led by our CRD Head, Mr. Mark D. Lumaad. After which, the opening remarks were given by Mr. Ivy R. Diez, our HR Manager. Sir Ivy shared the importance of taking strides in innovation to continually grow the company needs and endeavours towards attaining strong business practices.

After the meal, a simple quiz activity was conducted by Ma’am Lexi.

Sir Mark in the midst of answering a quiz question as the other attendees listen on.

After the remarks, attendees witnessed a video presentation showcasing the features of the new website. Everyone enjoyed an appetizing lunch, took the time to relax and have a great time. Hunger being sated, attendees of the event got to show off their knowledge about the company by answering the questions of a simple quiz activity and winning prizes for their correct answers!

To top off, Our General Manager, Ms. Diana E. Ringor delivered the closing remarks. Ma’am Diana recognized and appreciated the efforts of both HR and Programming in bringing this project into fruition. She remarked, the accomplishment is a strong testimony towards the company’s continued effort to be an industry leader thus, setting the standard for other companies to follow Infuturo Inc.’s practices.
